Harrisburg and Wilmington Have Small Chances of Supplanting Montreal and Rochester-Cornell May Lose Thanksgiving Day Game With U. cf P.

P. T. Powers, president of the Eastern League, says that the meeting which was to have been held this week has been postponed for about ten days. Powers declares that Harrisburg and Wilmington have small chances of supplanting Montreal and Rochester respectively in the circuit and says that in his opinion all of last year's teams will begin the race as usual next month. Up in Rochester they say that when the Eastern League meeting convenes Powers will be asked to resign by several persons who have been after his scalp for some time. But Powers says he is not at all alarmed and that if anybody wants him to pull up stakes he will do so willingly.

Willie Keeler, the New York Americans star right fielder, who with Jack Chesbro has been coaching the Harvard team for several weeks, arrived from Cambridge yesterday, and will go South to join his fellow ball players to-morrow. Keeler says that Harvard will have a strong ball team this and there is a wealth of new material. Chesbro, who has the Crimson pitchers in his care will not go South before Saturday. Both Keeler and Chesbro are ready to play ball

Pennsylvania may not meet Cornell in the usual Thanksgiving Day football game this year. It is this fact which has held up the Quaker's football schedule for such a long time. Cornell has refused to enter a crew in the race for college junior eights in the "American Henley," to be rowed on the Schuylkill on May 27, as the Ithacans will row a junior race with Harvard at Lake Cayuga on that date. Two years ago Cornell failed to send an entry to the junior crew race on the Schuylkill, notwithstanding the fact that Pennsylvania the year previous had rowed at Ithaca. It was then said that this lack of courtesy, might result in the breaking off of athletic relations with Cornell, but nothing came of it, and Pennsylvania again rowed on Lake Cayuga last year. A second affront of the same nature seems like rubbing it in too hard, and the outcome may be that Pennsylvania will alter the football schedule, substituting another eleven for Cornell on Thanksgiving Day. Cornell's athletics are practically supported by the receipts from the annual football game with Pennsylvania, and it is apparent that the Red and Blue authorities intend to make the most of this fact. Should Pennsylvania drop Cornell from the football schedule the Carlisie Indians would probably receive the Thanksgiving Day date, which would be a matter of profit for the red men. ack of courtesy, might result in the breaking

Chariey Dwyer, who owned Africander two years ago, has arrived in New Orleans from California. Young Dwyer attended the Los Angeles meeting the greater part of the winter, but for the past few weeks he has been visiting the Catalina Islands. When he left here last fall he had disposed of all his intereste in his former racing stable and in spite of the fact that his uncle, Philip J. Dwyer, has taken him into partnership in a stable this year, the young man has received no authentic information to this effect except what he has read in the newspapers. He will come East in a few days to make preparations for the coming season.

Hard luck seems to cling to the family of the steeplechase jockey Jimmy Mara. Last year Mara had his collarbone broken several times, but after a quiet winter he recently announced that he was ready for another campaign. Mara has a son, Willie, who is an apprentice in the stable of 'Father Bill' Daly. Yesterday little Mara while exercising a Daly horse on the Coney Island Boulevard was thrown heavily and had a leg broken in two places. He was dragged for some distance.

As a result of dissensions in the ranks of the Western Jockey Club, the special meeting called for to-morrow at Hot Springs has been declared off. It is said that the intention of the Crescent City Jockey Club to continue racing at New Orleans after Saturday has caused a peck of trouble and that the Memphis track will soon openly declare itself in favor of the American Turf Association.

The following entries have been received for the Metropolitan Handicap: Marjoram, 4; Santa Catalina, 3; Bohemia, 3; Beldame, 4; Lord of the Vale, 5; Palette, 4; Wotan, 4; Ort Wells, 4; Chieftain, 3; Rose of Dawn, 3; Irish Lad, 5; Knight Errant, 4; Sir Brillar, 3; Martinmas, 5; Kehalian, 3; Bedouin, 3; Jacquin, 4; Roseben, 4; Delhi, 4; Sysonby, 3; Israelite, 4; Little Em, 4; Merry Lark, 3; Adbell, 4; Sighish, 5; Coy Maid, 3; Incantation, 5; Lord Badge, 6; Goldsmith, 6; Ormonde's Rights, 4; Woodsaw, 3; Race King, 4; First Mason, 5; Colonial Girl, 6; Baker Waters, 5; Hermis, 6; Stalwart, 4; St. Bellane, 3; Tanya, 3; Artful, 3 Dolly Spanker, 4; Montreson, 4; Leonidas, 4.

If Chase makes good as first baseman for the New York Americans, Ganzel will be in an odd predicament. Ganzel has purchased an interest in the Grand Rapids club and wants to manage the team. Clark Griffith has sent him a contract for a salary that is slightly in excess of the one he received here last season. Griffith says that Ganzel will have to play with the New York Americans or not at all and that he will not be traded under any circumstances. This means that Ganzel, if he manages the Grand Rapids team, cannot direct his players from the bench, but will have to sit in the grand stand. Last year he was permitted to umpire many games here on Sundays and also to play in such contests for sums ranging from \$25 to \$100 a game. In that way Ganzel picked up about \$500 over and above his salary. When it comes down to actual cases, Ganzel will hardly refuse to come here when he knows that more than \$3,000 can be picked up. Playing baseball for a salary and backing a ball club with a small bank roll are two very different propositions.

The candidates for the University of Pennsylvania and the Annapolis varsity crews have deserted the rowing machines and are now taking daily exercise on the water. The midshipmen have arranged races with Georgetown, Yale, Pennsylvania, and Columbia, and are also trying to induce a crew of Harvard men to meet them about the first of May. Ellis Ward says the material for the Pennsylvania crew is more promising than in several years.

YALE ATHLETES WIN. Beat Cornell and Columbia in New York

A. C. Games. The New York A. C. held its annual winter carnival at Madison Square Garden last night, and it was preeminently a success. A crowd of about 5,000 of New York's smart set were present and they enjoyed the efforts of the athletes, for every performance was well ap-

plauded. The programme contained nineteen events athlete was carefully catered to. There were relays for colleges, local and out of town and of different distances, and a relay for the athletic clubs, schools and other organizations, and the full quota of handicap events on track and field. Capt. Charles H. Sherrill ed how easily and smoothly a meeting build be run off. Only about a dozen offiils were engaged and no one else was illowed inside the arena, so every finish could be seen plainly, and without the least

The best contest of the night was the mile nd a half run. Nebrick of Buffalo occupied the post of henor, with W. G. Frank on 20 yards. Two laps from home it looked easy for Nebrick, for he was then leading, but fifty yards from the worsted Frank came fearing along and, amid a wild scene, there was a scramble to the line, Frank winning by

The college element in the house was fully roused when Yale and Cornell toed the scratch for the two mile relay race. For the first relay Rogers of Cornell led the Yale man by a couple of yards, but in the next relay Hill of Yale did some fine running and opened up a big gap on Paate of Cornell This practically settled the issue, for Burnap of Yale went still further away from Over-

opened up a big gap on Paate of Cornell This practically settled the issue, for Burnap of Yale went still further away from Overman.

Munson, the intercollegiate champion, ran the last relay for Cornell, but he could do nothing with Parsons of Yale, who won by sixty yards.

Yale was to the fore again in the mile relay, with Columbia as an opponent, and the New Haven man, Cates, came in for some hissing, as he ran very close to Walz's shoulder. At the end of the first relay Cates was leading by forty yards, and this advantage the Eli runners kept up till the worsted was reached.

The mile relay for athletic clubs brought out four clubs—the New York A. C., Irish A. A. A. C., Xavier A. A. and St. Bartholomew A. C.—and the contest woke up the enthusiasm of the spectators in great shape. With the crack of the pistol Walsh of the New York A. C. bounded away with a lead and had an advantage of five yards when he finished his quarter. The winged foot runners maintained a good lead to the finish, but in the last relay it looked as if Robertson would collar Valentine, but the latter had just steam enough to win by five vards.

There was some surprise among the spectators and the critics in general when the time was announced for the two mile relay race for athletic clubs. The watches showed 7 minutes 50 4-5 seconds time, which if correct would mean a great piece of running and beat the former record by about nine seconds. A consultation of the officials, however, revealed the fact that the winning team ran a lap, or 178 yards, short of the full distance.

The relays for the Intersettlement A. A. and the grammar schools produced lots of excitement, especially among the partisans of these organizations who occupied the upper part of the house. For falling to touch their men at the end of the relays two of the competing teams, the Gordon A. A. and Clark Neighborhood, were disqualified by the referee. Public School 18 was a close second.

## YACHT SONYA LAUNCHED. Herreshoff 52-Rater to Race Against

British Boats. The new 52-rater Sonya, built by Herreshoff for Mrs. G. Turner Farley, was launched yesterday at Bristol. The boat is beautifully yesterday at Bristol. The boat is beautifully mode lied and Capt Stokes, who is to race her against the British boats, is enthusiastic about her. She will be rigged and in about two weeks will have her trial spins. Her spars and sails are all ready. Then the boat will be dismantled and shipped to the other side. She will meet a new boat by Alfred Mylne, which, according to reports, is an improved Movana, a boat that proved to be very fast and the top of her class. The meeting of the new Mylne boat and the Herreshoff craft will be watched with much interest, because these two designers are likely \$\frac{1}{2}\$ turn out the challenser and defender in the next series of races for the America's Cup.

LEGAL STEPS THREATENED BY THE EMPIRE CITY CLUB.

Petition for a Behearing of Its Application Served on August Belment-Issue Joined With the State Racing Com-mission—Case Told in Detail.

An effort to reopen its claim on the Jockey Club for racing dates and to compel the State Racing Commission to grant it a license is to be made in the courts by the Empire City A petition from the Empire City Club which was delivered yesterday to August Belmont, president of the Jockey Club and chairman of the Racing Commission, by Robert E. McDonnell, one of the directors and counsel for the Empire managers, it is asserted, is the first shot in the legal battle. The petition filled forty-four typewritten pages and recites the whole case in detail.

In refusing a license the Racing Commission based its action on the report of the secretary, John Boden. The petition served on Mr. Belmont contains a denial of many of the statements made in this report and sets forth many new facts to show how well equipped the Empire City plant is for the holding of running meetings. Comparisons are made with a number of the tracks already licensed, showing the superjority of the Empire City property. Its transporta-Saratoga, and will be improved a great deal as soon as a license is issued. The stabling accommodation is far superior to that of Brighton Beach and other metropolitan tracks named. The grand stand, a modern

accommodation is far superior to that ef Brighton Beach and other metropolitan tracks named. The grand stand, a modern steel structure, surpasses in every respect at least those on four of the Long Island tracks, and so on, each objection being referred to in detail and shown to be groundless.

The Empire City Club also takes issue with the decision of the State Racing Commission that the allotment of dates by the Jockey Club before the issuance of a license is a just and reasonable regulation, as required by the Percy-Gray racing statute. This action is equivalent, it asserts, to an abdication in favor of the Jockey Club by the State Racing Commission of the powers and duties imposed upon the commission by law. To quote from the petition: "Upon the State Racing Commission, therefore, and not upon the Jockey Club, does the statute place the responsibility of determining waether a proper case for the issuance of a license is shown. The Jockey Club has neither power nor responsibility in the premises."

According to the petition, each one of the corporations in which members of the Jockey Chub and racing commission are interested have received licenses, and it avers also that the stockholders of these licensed tracks, who compose in part the racing commission and Jockey Club, are financially interested in excluding the Empire City Club from giving meetings. The true reason for the refusal, the petition says, "may perhaps be found in the fact that the business of conducting racing meetings has proved profitable to those interested in the several racing corporations, including members of the Jockey Club args in the petition "that the intention of the statute is not the creation of a racing trust such as now virtually exists." The petition "challenges the intimation that the State Racing Commission.

"While it is not surprised that those enjoying a monopoly of racing are unwilling to share the revenues, which last year amounted to \$3,505,126, with outsiders," the Empire City Club urges in the petition "that the inte

CHASE FLIRTS WITH AMERICANS. Flast Raseman Wants to Stay in California

.-- Criffith Says Nay. MONTGOMERY, Ala., March 16 .- A long Suffering man is Manager thriffith of the New York, Americans, but he was a pretty sore nan this morning. His California first baseman, Hal Chase, did not get in as was ex-pected. Instead he has not even started. A telegram came from him to-day from Los Angeles, in which he said he intended to play n Los Angeles if possible. He also went on to say that he would come on and join the New Yorks, but that James Morley, owner of the Los Angeles club, said he could hold

The last clause of the telegram is the milk cocoanut. Griffith says Morley wants to keep Chase and that he has been deluding retained. Pitcher Newton says that Morley ried to persuade him (Newton) to stay in alifornia only a few days before he came East. "He told me," says Newton, "that I would have my trip for nothing and that he would have my trip for nothing and that he could hold me. Newton were less guillible than Chase. Chase and Newton were drafted by the New York Americans last season and the Los Angeles club registered an objection of some sort. The National Commission decided that the Los Angeles club had no case, but Morley, it appears, is still trying to hold at least one of the two men. Only a few days ago \$200 advance money was sent to Chase by the New York club and he called for the railroad ticket to Montgomery which the New York club had sent him.

Uriffit to-day telegraphed Ban Johnson about the matter in order that the American League president may see to it that Chase leaves Los Angeles and reports to the New York club, to which he belongs. Chase has not a chance to play with any other club, Griff declares. As Chase has been playing ball this spring, he ought to be in good condition when he does report, but that does not make Griffith any the less indignant over what he considers tampering with his rights. Griffith expects the matter to be straightened out in a few days. To-night he received a telegram from Ban Johnson's secretary, which read:

"Matter has been put before National Com-

ceived a telegram from Ban Johnson's secre-tary, which read:
... Matter has been put before National Com-mission. Will advise you.
The practice to-day went merrily on. Fast work was done. The infielders took their positions and practised for to-morrow's game with Montgomery. As Elberfeld is still an absentee, Joe Yeager will cover short. An-derson will be on first base, Orth, Fultz and Holycross in the outfield, and Clarkson, Whitley and Duff the batteries.

SEAWANHAKA YACHT RACES. Committee Confers With Owners on the Season's Programme.

The race committee of the Seawanhaka-'orinthian Yacht Club met last night et the City Club on West Forty-fourth street and conferred with the owners of yachts enrolled in the club about the season's programme. Dates were arranged for regattas and will be submitted to the board of trustees. The clubhouse at Oyster Bay will be opened on Saturday, May 27. After the usual formalities there will be a gig race and water sports. There will also be a race for 33-footers owned by club members. On Decoration Day there will be open races for, 33 and 15 footers. On that day there will also be regattas held by the New York and Indian Harbor yacht clubs.

The race around Long Island will be started on June 10. When this race was first proposed there were three boats to take part, but other yachismen have become interested in the contest and now there are five entries. It is probable that there will be ten starters in this contest. The race will be started from off the Atlantic Yacht Club house at Sea Gate and the finish will be at Oyster Bay.

from off the Atlantic Yacht Club house at Sea Gate and the finish will be at Oyster Bay.

There will be three days open racing off Oyster Bay on June 22, 23 and 24, the annual regatta of the club being sailed on the last of these three days. On July 8 the 33 and 15 footers will be sailed for prizes offered by Rear Commodore Hastings. The boats in this regatta will be sailed by women. The fall regatta will be sailed on Sept. 18.

As usual there will be club races each Saturday during the season for the 33 and 15 footers. For the 15 footers three series have been arranged, the most interesting of which will be sailed in August. The owners will draw lots before each race for the boats they are to sail and the prizes will go to those owners who have made the best percentage in the series. The club will have some power boat races, but the dates for these have not yet been arranged.

AUTO SHOW A RECORD BREAKER. Big Attendance, Extensive Buying and

Many Novelties in Mechanics Hall. Boston, March 14 .- The automobile show ere continues to be a record breaker in point of attendance and interest and buying. The diversity of the show and its size makes it one to which several trips are necessary to see it all, the same as with the national show. New improvements are discovered as one continues to explore the stands.

A striking innovation is found on the Sturteair brake which acts automatically as soon as the clutch is thrown out, and it remains set as long as the clutch is out and the car is at a standstill. Another novelty is an engine with changeable cylinders on the Ariel car. It can be run as a water cooled engine in summer time and an air cooled one in winter. A portable automatic sack which lifts the car and all four wheels clear of the

iffts the car and all four wheels clear of the ground when driven upon is another device shown here for the first time.

There is a regular epidemic of buying, the demand for medium and low priced cars being particularly strong. Although a few thousand persons are lost in Mechanics Hall, the aisles are well filled both afternoon and evening. The motor boats and collepsible automobile houses and machinery in the basement attract a goodly share of the interest.

basement attraction interest.

Many of the cars for the Importers' Salon in Symphony Hall have been delayed in transit, but in spite of this and the drawing power of the big show of the local dealers the exhibition of foreign cars is meeting with success.

COACH REID AT HARVARD. Will Straighten out Football Matters -Eights on the River.

CAMBRIDGE, March 14.-William T. Reid, who will be the head coach of the Harvard football eleven next fall, arrived from the West this morning and will begin at once to straighten out football matters here. Regarding the football schedule for next season Reid said that several games had not been decided upon. One of the teams Harvard is considering is Columbia, which has not played Harvard for several years, in fact not since Reid was at Cambridge. Oct. 23 is being held open for the possibility of this game. The Dartmouth game also has not been arranged. The football schedule will be ready for publication within a few days. The Harvard 'varsity rowing squad had its first taste of rowing on the river in eight cared crews this afternoon. The men have been out in pair cars before, but to-day was the first time that eight men have gone out together. The Charles is by no means clear of ice up at the boat houses, but it was clear enough for a stretch of several hundred yards below the 'varsity boat house. A heavy barge was used by the men, and in it four different eights went out. No attempt was made to grade the varsity squad into regular eights, the men were sent out just as them happened to report for practice. Coach Wray and Capt. Filley coached the men, who were rather awkward after working on the machines all winter.

Daniel A. Newhall, '06, of Philadelphia, was elected captain of the Harvard 'varsity hockey team this afternoon. Newhall is one of the most versatile athletes in his class. the first time that eight men have gone out

VESPER'S TRIP ABROAD. Will Accept German Invitation to Row at

Hamburg on July 16 and 17. The Vesper Boat Club of Philadelphia will

not only have a try for the Grand Challenge Cup at Henley, but will compete at the regatta of the German Rowing Association of Hamburg, Germany, which will be held on Lake Alster, July 16 and 17. Fred Fortmeyer, secretary of the National Association of Amateur Oarsmen, has been notified that the Germans are sending over an invitation to the Vespers, and he has told the Quakers, who have notified him they will accept the

who have notined him they will accept the invitation.

This regatts at Hamburg is regarded as thetierman Henley and is annually patronized, by crews from all over Europe. One of the most valuable trophies—the Kaiser's cup—is now held by the Thames R. C. of Henley, and it is reported the Vespers intend to have a crack at this event as well as an eight, a pair and a single. It is the intention of the Vespers to leave England about July 7 for tiermany. The affidavit of the captain and candidates of the Veaper's Henley crew were forwarded by mall to England yesterday.

The 1905 WINTON ignition outfit includes (1) a powerful Magneto, (2) the simplest of spark coils—one that never needs adjusting, and (3) dry cell battery for starting only.

Magneto ignition is used on practically all high grade cars. BUT-note this difference.

The WINTON Magneto is driven by gear, direct connected to the motor. Other magnetos, driven by chain or friction, cannot spark regularly because of BACKLASH or SLIPPING. That means lost power, and, very often, engine breakage, due to prema-

WINTON ignition overcomes these faults—is ABSOLUTELY SURE. The spark MUST occur at the proper time and is always FAT and HOT. This advantage, like many others, is an Exclusive WINTON feature.
